**MAXILLOFACIAL TRAUMA CONFERENCE.** Rm. 4H40. 7 a.m.

**Nominations now are being sought for The John B. Harris Award, presented annually to a graduating UCSF student who best exemplifies the late physician's qualities.**

A faculty member in the CVRI and the Department of Medicine at SFGH for 19 years until his death in 1973, Harris was a dedicated scholar who contributed significantly to UCSF's teaching programs.

Harris was vitally concerned with the civil rights movement and in particular with extending educational opportunities for disadvantaged groups, especially blacks. He was one of the founding members of the UCSF Black Caucus and served as an advisor to several black medical students.

Nominations may be submitted by faculty members and members of the graduating classes of the four professional schools and the Graduate Division. Students nominating themselves must provide additional support for nomination. For further information and nomination applications visit one of the student affairs offices, the Student Services building, or call Marie Fox at x4776. Deadline for nominations is Friday, April 19.

**The UCSF Faculty Wives will hold their Annual Spring Luncheon on Wednesday, May 1,** 11 a.m. at the Faculty/Alumni House. They will present a check to Senior Vice Chancellor David Ramsay for the UCSF Faculty Wives Student Loan Fund. New members also will be welcomed. For further information call Marjorie Campagna-Pinto at 921-6646.

**The Moffitt Hospital Gift Shop now offers one-day processing on 110, 126, disc and 35mm color print rolls, at any ASA speed.** Drop-off locations are in the gift shop and in the Golden Gate Room of the Moffitt Cafeteria.

## DEADLINE

**Deadline** for the next issue of *Today & Tomorrow,* covering the time period Apr. 27-May 10, will be **Tuesday, Apr. 16, 11 a.m.** Please send your copy to Allen Balderson, News & Public Information Services, 532 Parnassus Ave., Rm. 300, x1541 or x2557.

**In order to expand campus telephone capability and eliminate confusion with other institutions, UCSF's telephone prefix of "666" will be changed to "476" starting mid-August.** With the new telephone system UCSF not only will have its own dedicated prefix, but new push-button phones may be used on and off campus.

- For on-campus numbers the last four digits will remain the same. For off-campus phones the 476 prefix will be followed by new four-digit extensions. This applies to SFGH, CED, 3333 California, VAMC, and Oyster Point.
- The Langley Porter 77- tie line, and all LPPI phone extensions, will be changed to conform to the campus 476 prefix some three weeks after conversion of all other campus lines.
- Installation of the new push-button telephones will begin immediately following the conversion to the new phone system. The replacement of telephone instruments will take approximately three months.

The Telecommunications Office now is in the process of setting up meetings with all affected off-campus departments to discuss the assignment of new telephone extensions.

For further information contact Mas Sugiyama at x2548.

**A multi-center, three-year immunization program has demonstrated that infants born to Asian American women who are hepatitis B carriers can be effectively protected against the virus with an 85 to 90 percent success rate.**

The study, reported in the March 22/29, 1985 issue of the *Journal of the American Medical Association,* was conducted by Pearl Toy, MD, UCSF assistant professor of laboratory medicine and chief of the SFGH Blood Bank; Girish Vyas, PhD, professor of laboratory medicine and director of the UCSF Blood Bank; Cladd E. Stevens, MD, New York Blood Center; and colleagues.

The study reported on the results of 113 vaccinations. The infants were followed for nine to 18 months, and of the 113, only 16 became chronic carriers of the disease—an incidence of 14.2 percent.

The researchers reported that 18,842 pregnant Asian American women were screened for the hepatitis B virus with 8.7 percent positive for hepatitis B surface antigen, and of those women three percent positive for hepatitis B e antigen. Only women with the e antigen were included in the study, according to the researchers, because they have a transmission rate as high as 90 to 95 percent.

Toy and Vyas, along with colleagues from the NY Blood Center and Huntington Memorial Hospital in Pasadena, began the study in October 1981. This was the first large-scale immunization trial of infants in the US using the blood-derived hepatitis B vaccine approved by the FDA.

**We're again number one!!! For the 10th year in a row, the UCSF School of Medicine has led all other US medical schools in receiving 481 awards worth $71.6 million** from the National Institutes of Health. This year Johns Hopkins ranked second, Yale third.

In addition, UCSF as a campus has topped all other campuses except Hopkins for NIH grants. UCSF received $79.2 million for 551 awards; Hopkins $90.6 million for 567 awards.

# NEWS BRIEFS

**A $5 million, five-year study of combinations of treatments for schizophrenia has begun at UCSF and four other medical centers.** The UCSF study will be conducted at SFGH under the direction of William A. Hargreaves, PhD, professor of medical psychology.

The study will compare combinations of family-centered therapy and anti-psychotic medication. The objective, according to Hargreaves, is to help the patient avoid hospitalization, to get along well using as little medication as possible, and to help the families with the difficulties of living with a schizophrenic family member. The patients in the study will either be living at home following hospitalization or be in close contact with their parents.

UCSF coresearchers are Marc Jacobs, MD, assistant clinical professor, psychiatry; John Hopkin, MD, associate clinical professor and acting director, psychiatry, SFGH; and Robert Surber, LCSW, chief social worker at SFGH.

The four other institutions in the study are Cornell University Medical School, New York City; Medical College of Pennsylvania, Phila.; Long Island Jewish-Hillside Medical Center, Glen Oaks, NY; and Emory University School of Medicine, Atlanta.

**The week of April 22 is National Volunteer Week to honor the millions of individuals across the nation who offer their services to people in need.** This year's slogan is "Volunteers Add That Special Touch."

To celebrate the week, the UCSF Volunteer Services is sponsoring a continental breakfast on Wednesday, April 24, from 8 to 10 a.m. in the Moffitt Cafeteria Pacific Room. The breakfast will honor all volunteers, especially those in the Foster Grandparent Program, nationally celebrating its 20th anniversary. Anyone wishing to thank the volunteers for their long hours of service is invited to attend.

Volunteer Services is sponsoring its next free noontime entertainment for patients on Friday, April 19, from 2 to 3:30 p.m. in Moffitt Cafeteria's San Francisco Room. The San Francisco Saxaphone Quartet will play works by Bach, Mozart and Beethoven. The campus is invited to attend, however patients will have priority seating.

If you are a singer, dancer, mime, magician, stand-up comic or story-teller, or have other talent, and would like to volunteer to entertain patients, call x1196 weekdays, from 9 a.m. to 3 p.m.

**Are you free Wednesday evening, April 17? Why not treat yourself to some fine wines, gourmet foods and chamber music?** A wine and food tasting featuring several award-winning California wines will be held on Wednesday, April 17, from 5:30 to 8 p.m. in the Millberry Union lounges to benefit the UCSF Committee for Arts and Lectures (CAL Programs).

This "Benefit Bacchanal" will feature wines from at least nine wineries, and at least six fine Northern California specialty foods including Laura Chenel's California Cherve, Marcel et Henri Pate, Saags sausages, Kozlowski jams and Eduardo's Pasta.

While you are sipping fine wines and sampling unique gourmet foods, you will have the opportunity to treat your ears to the chamber music of the Whitson Trio.

Tickets for the event are $15 and are available at the Millberry Central Desk or at the Ashbury Market, 205 Frederick Street. For further information call x2571.

**The UCSF Hospitals Auxiliary will celebrate its 25th anniversary with an art auction on Thursday, April 25,** from 3 to 7 p.m. in the Millberry Union lounges. Available art will include paintings, rare books, drawings, photographs, prints, one-of-a-kind jewelry, needlework, sculptures, ceramics and antiques. The Auxiliary hopes to raise $15,000 from the auction for new patient programs and much-needed hospital equipment.

**Some 25 UCSF researchers will make presentations at the International Conference on AIDS, April 14-17 in Atlanta.** The conference is sponsored by the Department of Health and Human Services and the World Health Organization.

Among the UCSF presenters are: Paul A. Volberding, assistant professor and director, SFGH AIDS Clinic; Andrew R. Moss, assistant professor, epidemiology and international health; Donald I. Abrams, assistant clinical professor, medicine and Cancer Research Institute; William L. Drew, associate clinical professor, medicine and laboratory medicine; Arthur J. Ammann, director, pediatric immunology/rheumatology and Pediatric Clinical Research Center; Conrad H. Casavant, assistant director, immunology/clinical laboratories; Peter Arno, Pew postdoctoral fellow, Institute for Health Policy Studies; Leon McKusick, researcher, medicine.

Marcus A. Conant, associate clinical professor, dermatology, will chair a clinical session.

**Two UCSF patients will make medical history by having their cases discussed live with physicians from the University of Manchester in England via the first international satellite hookup between two medical centers.**

The international case discussion and lecture are scheduled for Thursday, April 18, from 8:15 to 9:30 a.m. in the Langley Porter Psychiatric Institute auditorium.

Physicians on both continents will not only discuss the patients' cases, but also will simultaneously examine the patients' test results taken with the latest state-of-the-art imaging devices.

Although the instant international exchange of medical information may one day be routine, this is the first time that it will occur in the US.

With major support from the 3M Company, it has taken more than a year to arrange the program that will involve two satellite hops and use of four channels so voice and video information can be exchanged in both trans-Atlantic directions.

The program is cosponsored by the UCSF Department of Radiology, which is holding its annual meeting at the University of Manchester. For lectures and case discussions to be transmitted see inside calendar under April 18.

**A memorial service will be held for Troy C. Daniels, PhD, on Friday, April 26, at 3 p.m. in Toland Hall.** Speakers will include Chancellor Krevans; School of Pharmacy Dean Jere Goyan; former faculty member Manfred Wolff; E. Leong Way, professor, pharmacology; Tom D. Row, former dean of the School of Pharmacy, University of Michigan; and two UCSF School of Pharmacy alumni, Marcel Laventurier, '51 and William Wickwire, '34.

A member of the campus community for 56 years, Daniels served as dean of the School of Pharmacy from 1944 to 1967. He died in February of this year.

**The First Annual Robert Magnin Newman Fund Lecture will be given Wednesday, April 17, at 3 p.m. in Toland Hall.** Well-known neurologist Jerome B. Posner, MD, chair of the Department of Neurology at Memorial Sloan-Kettering Cancer Center, New York City, will discuss "Paraneoplastic Syndromes."

Author of several books and the coauthor of *Diagnosis of Stupor and Coma* and *Topics on Tropical Neurology,* Posner is an expert on malignant brain tumors, expecially those that are metastatic.

The Robert Magnin Newman Fund was established in 1981 by Walter S. and Ellen Magnin Newman in memory of their son Robert, who died of a brain tumor that March at the age of 27. Walter Newman is a member of the UCSF Board of Overseers, and Ellen Magnin Newman is vice chair of the UCSF Foundation.

**On display through May in the Rare Book Room of the Library is an exhibit of 12 "cradle books"—books printed during the first 50 years of European use of movable type, 1450-1500.** The books are by European and Middle Eastern authors and cover several medical areas including surgery, syphilis and the plague.

**School of Medicine Dean Rudi Schmid, MD, will present the Fourth Annual Milo E. Rowell Lecture** on Tuesday, April 30, 6:30 p.m. at the Centre Plaza Holiday Inn, Fresno. He will discuss "Educating Tomorrow's Physicians: Reflections of a Dean."

Following the lecture, a dinner honoring UC President David P. Gardner, PhD, and UCSF Chancellor Julius R. Krevans, MD, will be held for invited faculty and guests.

Rowell established the UCSF-Fresno Central San Joaquin Valley Medical Education Program in 1975, for which he received the UCSF Medal that same year. He died in 1977.

**Edward B. Shaw, MD, San Francisco's "Grand Old Man of Pediatrics," was honored on April 11 at Pediatric Grand Rounds held in recognition of his 90th birthday.**

By coincidence, this celebration came only one day before the 30th anniversary of the licensing of Salk's poliomyelitis vaccine, the area where Shaw is recognized as making his greatest contributions to pediatrics.

Known as "everyone's pediatrician," Shaw is one of the nation's leaders in infectious childhood diseases and epidemic diseases. Between 1925 and 1977, Shaw published 18 articles or book chapters about polio. He is recognized as a world authority on polio and directed the immunization of nearly 3 million people in Northern California in the early 1960s. The victim of polio as a young boy, Shaw dedicated three decades of research and clinical treatment to preventing the disease in others.

A clinical faculty member since 1921 when he graduated from UCSF, Shaw served as professor and chair of the Department of Pediatrics from 1958 until his retirement in 1965.

As an emeritus professor, Shaw continued to pursue his research interest in childhood infections and Sudden Infant Death Syndrome.

**Space still is available for the June 22 "Basics of Searching MEDLINE" seminar.** Sponsored by the UCSF Library, the seminar will consist of an all-day session on Saturday followed by an optional two-hour practice session one week later.

The seminar is open to UCSF practitioners, educators, researchers and students in the health care field. Completion of the session will enable the participant to apply for an individual access code from the National Library of Medicine for online searching of the MEDLINE database. This is not a course for those who intend to perform MEDLINE searches for others.

Cost of the seminar is $95. Applications are available at the Library Administration Office, S 257. Classes also will be held in the fall and winter. For further information call Carol Yates-Imah or Elisabeth Bell at x2334.

## HONORS & AWARDS

**Ira Herskowitz,** professor & vice-chair, biochemistry/biophysics; head, Division of Genetics: One of 13 distinguished scientists to receive the National Academy of Science's Murray J. Luck Award for Scientific Reviewing at its 122nd annual meeting in Washington, DC, on Mon., Apr. 22. The $5,000 award recognizes Herskowitz's "incisive reviews of phage biology, both literary and pictorial, that have focused and enlivened their subject for practitioners and spectators alike."

**Louis F. Reichardt,** associate professor, physiology, biochemistry & biophysics; **Zena Werb,** professor, radiology & anatomy: Appointed Guggenheim Fellows for 1985. The fellowships are from the John Simon Guggenheim Memorial Foundation and are awarded on the basis of demonstrated accomplishment in the past and strong promise for the future. Reichardt has been studying the growth of nerve cells and most recently a chemical called Nerve Growth Factor. Werb's major research interest is the synthesis and degradation of connective tissue and the function of phagocytic cells such as macrophages.

**Malcolm D. Jendresen,** professor & chair, restorative dentistry, School of Dentistry: Elected president-elect, Dental Materials Group, International Association of Dental Research at their meeting Mar. 24. He will become president in The Hague, The Netherlands, June, 1986.

**Paula A. Braveman,** assistant clinical professor, family & community medicine; member, UCSF-Mexus: Invited representative at the Pan-American Health Organization, University of Texas-Galveston and Carnegie Corporation's meeting on "US-Mexican Border: Gaps in Services & How to Fill Them," Feb. 27-Mar. 1.

**Steven R. Cummings,** assistant professor, medicine & epidemiology: One of two researchers named this year to receive a Henry J. Kaiser Family Foundation Faculty Scholarship. The awards are given to selected general internists for up to five years to support their clinical research, and also recognizes the strong programs of general internal medicine backed by the researchers' departments and schools of medicine.

**Linda Groah,** director, Nursing OR/PAR; assistant director Hospitals & Clinics: Elected treasurer of the Association of Operating Room Nurses at their 32nd annual convention in Dallas, Feb. 25-Mar. 1.

**Louis E. Gonzales,** assistant clinical professor, dental public health & hygiene; chief of service, community dentistry, School of Dentistry; member, UCSF-Mexus: Invited participant at the International Conference on Community Dentistry on Feb. 7-9, Universidad Autonoma de Sinaloa, Mexico. He spoke on "Utilization & Application of Dental Pit & Fissure Sealants & Fluorides."

**John F. Murray,** professor, medicine; chief, Chest Service, SFGH: Appointed to the National Heart, Lung & Blood Advisory Council of the US Department of Health & Human Services' National Heart, Lung & Blood Institute.

**Calvin Zippin,** professor, epidemiology, Cancer Research Institute, epidemiology and international health & pathology: Served as temporary advisor, World Health Organization in Bogota & Cali, Colombia, Mar. 17-24.

**Dick Pabich,** manager, UCSF AIDS Clinical Research Center: Appointed to the California AIDS Advisory Committee by Assembly Speaker Willie Brown.

**Elsa Cohn,** volunteer, Hospital Gift Shop: Named volunteer of the month for April. She has been a volunteer in Hospitals & Clinics since May 1983.

## IN MEMORIAM

**John N. Pappas.** A friend of the campus for several years, in 1979 Pappas donated the marble statue of Hippocrates which stands in front of the Ambulatory Care Center. The statue, by the Greek sculptor Kostas N. Georgakas, is made from a solid piece of white marble taken from the mountain of Penteli in Greece. An immigrant child from Greece, Pappas came to San Francisco in 1905 and managed the Red Poppy Candy Co. on Polk near California from 1918 until he retired in 1953.

## PUBLICATIONS

**Robert E. Slaughter, William L. Holzemer, Donald B. Chambers** & **Mark J. Slichter,** all computer resources, School of Nursing: Authors of the software *TAP: Test Authoring Programs* (Addison-Wesley, Menlo Park, 1985). This computer program is designed for the IBM PC/TX and helps educators generate tests.

**Robert B. Aird,** professor emeritus, neurology: Co-author, *The Epilepsies: A Critical Review* (Raven Press, NY, 1984).

**A five-part workshop for parents of young teenagers, which had to be cancelled in March, now has been rescheduled** for Monday evenings, April 15, 22, 29, and May 6 and 13. Sponsored by the UCSF Adolescent Medicine Division, the workshop is open to parents of teens 11 to 13 years old and is designed to ease the transition from childhood to the early teen years. Enrollment is $35 per person; $50 per couple.

Codirectors of the workshop are Marna Cohen, LCSW, and William Shore, MD, of the Adolescent Medicine Division. Advance registration is required. Call x2184 for information.
